EANS2022 Belgrade Congress: An event to remember!

**EANS2022
Belgrade**

In October, we spent our congress days meeting old and making new friends, exchanging scientific information, and sharing our experiences for the benefit of our patients. Our return to in-person meetings after the pandemic years couldn't be better. The **EANS 2022 Belgrade Congress** will remain in the EANS

history as a legacy event. The programme consisted of 11 plenary and 13 parallel sessions, 20 masterclasses, and 10 pre-congress symposia. The EANS family would like to express sincere gratitude to the...

1400 delegates from 83 countries who attended the congress, **42 exhibitors** that participated in the EANS2022 industry exhibition, **423 faculty speakers and oral abstract presenters** who delivered lectures of outstanding quality and interest! **658 e-Poster presenters** for offering all this knowledge to the congress attendees.

During the Opening Ceremony, **Novak Djokovic**, the world-class Serbian Tennis player honored our delegates with an amazing speech on human values, mental health, personal development, resilience, self-confidence, and universal challenges that we encounter in our daily lives.

Our local host, Lukas Raculic deserves everyone's warmest congratulations for delivering a memorable experience during the EANS2022 Belgrade Congress. The bar is now set high for the future.

Preparations for next year's congress have already begun and we hope to come together yet again in Barcelona on **24-28 September 2023!**

We're indexed! Brain & Spine Journal is listed in PubMed Central (PMC).

The Editors-in-Chief of **Brain and Spine**, the official journal of **EANS** and **EUROSPINE**, Wilco Peul and Frank Kandziora, are pleased to announce that the Brain and Spine Journal has been officially included in **PubMed Central (PMC)**!

This represents a milestone for our journal and comes after a rigorous evaluation process conducted by the National Library of Medicine (NLM).

From now on, all new articles published in Brain and Spine will be automatically uploaded to the journal's website and to the PMC database. This can already be viewed [here](#).

To celebrate this milestone, we are pleased to announce 10 additional APC waivers!

We invite you to visit our [website](#) to learn more, encourage you to [submit your papers](#) to the Brain and Spine journal, and follow and interact with us through the journal's [Twitter channel](#).

Young Neurosurgeons Network – JOIN NOW!

The **Young Neurosurgeons Network** was officially launched during the EANS2022 Belgrade Congress. The network aims to become the number 1 connecting platform for young neurosurgeons in Europe and empower every young professional in neurosurgery to achieve more, get better training, and more education.

If you are a young neurosurgeon, you can join the Young Neurosurgeons Network and take a seat in the **future of Neurosurgery!**

We invite you to the EANS2023 Barcelona Congress!

Dear Friends and Colleagues,

We would like to invite you all to the EANS2023 Barcelona Congress which will last from 24 to 28 September, coinciding with the end of Barcelona's local festivities.

We have designed a programme based on technological advances and how we can utilize this to help low- and middle-income countries. Global Neurosurgery is at its high and EANS cannot and will not miss being part of this project, which involves

assisting international initiatives to reach the countries which are most in need. That is why the congress is called "Neurosurgery and Technology at the service of Humanity".

The programme will involve a pre-congress meeting with as many stakeholders as possible on Global Neurosurgery and see if we can create the foundation and base for transversal and integral cooperation. We have been working hard in our Global Neurosurgery

Section and we intend to share our results with you there. Barcelona can also become the opportunity to bring all neurosurgery together and enjoy the culture, the city, the gastronomy, and its world-known architecture. We will provide daily, post-congress meetings with local historians and sommeliers so they can take you for a visit to their cellars or areas of the city that you certainly wouldn't have known otherwise.

Let's make this a great experience for all and the greatest opportunity to express our friendship globally in Barcelona! We can't wait to show you our latests discoveries about the city. Barcelona and the EANS are waiting for you with a glass of cava.

See you in Barcelona!

Jesus Lafuente
Congress President

Andreas Demetriades
EANS President
